OMASAN EDEGBELE

Software Engineer | AI/ML | Fullstack Developer

[LinkedIn | Website | Github]

[SUMMARY]

Software Engineer with 4+ years of experience building scalable applications and developing data-driven systems. Skilled in full-stack development and machine learning, with hands-on experience in object detection, analytics, and real-world data pipelines. Focused on delivering reliable, production-ready solutions with strong technical and user impact.

[TECHNICAL SKILLS]

Languages: Python, C#, JavaScript, SQL, Java, Typescript
Frontend: React.js, Angular.js, ASP .NET
Backend/Tools: .NET, Git, Eclipse, AWS, Github
Machine Learning: Pandas, NumPy, scikit-learn, TensorFlow, Keras
Tools: Google Collab, Jupiter Notebook, Visual Studio, VS Code, Eclipse, Microsoft SQL Server

[EXPERIENCE]

Application Developer - Professional Computer Solutions | Jan 2024 – Present

- Developed and maintained financial and billing systems for utility clients, ensuring high performance and reliability.
- Collaborated with cross-functional teams to troubleshoot and resolve technical issues.
- • Translated complex business requirements into scalable software solutions to enhance internal workflows.
- Gained experience in software maintenance, user support, and IT project coordination.

Information Technology Intern – Union Pacific Railroad | June 2021 – Dec 2023

- Supported enterprise applications and internal tools across the organization.
- Collaborated with cross-functional teams to troubleshoot and resolve technical issues.
- Assisted in the development and deployment of software solutions to enhance operational efficiency.
- Gained experience in software maintenance, user support, and IT project coordination.

[PROJECTS]

YOLOv8 Object Detection System

- Trained object detection model on 5,600+ labeled images across 11 classes
- Improved detection accuracy through preprocessing and model tuning
- Generated evaluation outputs and visual results for validation

Sales Analytics Dashboard

- Analyzed large-scale sales data to identify trends and business insights
- Built visualizations to support decision-making and performance tracking
- Cleaned and transformed datasets using Pandas

[EDUCATION]

B.S. Software Engineering –University of Nebraska at Omaha (UNO)
Masters Certificate in AI & ML – Purdue University
